❖ EDUCATION

B.E Information Technology, Shree L.R. Tiwari College of Engineering
Mumbai University - CGPA: 7.3

2022 - 2026
Mumbai, India

Honours in Data Science

Higher Secondary Education (Class XII) | Percentage: 72%

2021 - 2022

Secondary Education (Class X) | Percentage: 74.67%

2019 - 2020

❖ TECHNICAL SKILLS

Languages : JavaScript (ES6+), TypeScript

Frontend : React.js, HTML5, CSS3, Tailwind CSS, SCSS, Redux

Backend : Node.js, Express.js, REST APIs, JWT Authentication, Middleware, CRUD Operations

Databases : MongoDB, MySQL, Redis

AI & LLM: LangChain, LangGraph, Prompt Engineering, LLM Integration, Multi-Model AI Systems, AI Evaluation Workflows

Tools & Platforms : Git, GitHub, Postman, VS Code, Vercel, Render

Core Concepts : OOP, MVC Architecture, API Design, Authentication & Authorization, Client-Server Architecture

❖ PROJECTS

Mindtunes - Real Time Emotion Aware Music Player 🔗 | [Live](#) | [Github](#)

Jan 2026

MongoDB, Express.js, React.js, Node.js, MediaPipe, JavaScript

- Developed a full-stack emotion-aware music player using MongoDB, Express.js, React.js, and Node.js.
- Integrated MediaPipe and webcam-based facial expression detection to identify user emotions in real time.
- Implemented mood-based song recommendation functionality to enhance personalized user experience.
- Built RESTful APIs for managing users, songs, playlists, and recommendation data efficiently.
- Designed interactive audio player features including play, pause, seek, next/previous track, and volume control.
- Created a responsive and user-friendly frontend interface using React.js and JavaScript for seamless music streaming.

NeuroArena - Multi-Model Response Evaluation Platform 🔗 | [Live](#) | [Github](#) | [Demo](#)

April 2026

React.js, TypeScript, Node.js, Express.js, LangGraph, Gemini API, Mistral AI, Cohere API

- Engineered a full-stack AI platform for real-time comparison of responses from multiple LLMs.
- Integrated Gemini, Mistral AI, and Cohere APIs to generate realtime responses for user prompts.
- Developed an AI judging system to score responses and identify the best-performing model.
- Designed RESTful APIs and automated prompt workflows using Express.js and LangGraph.
- Created a responsive React-based UI with reusable components and modern design principles.
- Streamlined AI evaluation by automating response comparison, scoring, and winner selection.

❖ EXPERIENCE

Full Stack Developer Intern 🔗

Jan 2026

Technohacks Solution Pvt. Ltd.

Remote, India

- Primarily worked on frontend development using React.js for MERN-based web applications.
- Developed 15+ reusable React components and responsive UI layouts for dashboard based interfaces.
- Integrated frontend components with REST APIs for authentication and CRUD operations.
- Assisted in implementing JWT-based authentication and protected routing functionality.
- Worked with Node.js, Express.js, and MongoDB for basic backend integration tasks.
- Used Git/GitHub and Postman for version control, API testing, and debugging.

❖ EXTRACURRICULAR

Hackathons 🔗 Participant | Mumbai, India

April 2025

- Participated in 24-hour college-level hackathons focused on full-stack web development and rapid problem solving.
- Collaborated with team members to design, build, and present functional project solutions within strict time constraints.

Student Council 🔗 Graphic Designer | Mumbai, India

June 2024

- Designed 45+ posters, event banners, and social media creatives for college events and promotional activities.
- Contributed 200+ hours toward branding, visual content creation, and creative design execution under strict deadlines.

❖ CERTIFICATIONS

• Full Stack Development - [Apna College](#) • SQL Bootcamp - [LetsUpgrade](#) • Software Engineering Job Simulation - [Forage](#)
